Subject: NEVADA PEOPLE AND YUCCA PROJECT

Part of Records Package / Supplement / Correction

Dear Sir: Letter form Mel Denney No:

To have any success getting to the people in Nevada you will probably have to use another means rather than the newspapers which seem to be under the control of Senator Reid, who is controlled by pusedo-environmentalists. You may have to use the mail to people in the areas of the nest scheduled meeting.

Your meeting must be limited to Nevadan's otherwise you will always be flooded with radicals from other states. Restrict attendance to people from Nevada.

You must convince them that they have never heard the real facts about Yucca flats because their elected representatives have attempted to keep the fact from them as directed by agencies outside of Nevada.

If you are not able to have informative meetings, you must inform Bush that the decision must be made by the Federal Govt. based on scientific facts, not the raving rabble that has the money to influence our elected representatives.
